

;IGYSIX™

Tim Stewart, 36, passed away on September 7, 2024. Known for his big heart, he was one of eight sons and grew up in Minnetonka. He loved boating, fishing, snowboarding, tinkering with cars, and spending time with friends.

Tim served five years in the U.S. Marine Corps as a CH-46 helicopter mechanic, he served two combat tours in the Middle East, and contributed to the Captain Phillips rescue mission.

Tim later became a paramedic with North Memorial Health, where his calming presence and selflessness made a lasting impact. He carried the emotional weight of his service, both as a Marine and a first responder. His family is proud of his legacy and will forever hold him in their hearts.
